

Your partner Bückmann

Bückmann is an owner-managed company in the field of screening and separation technology.

Our products and services have been successful on the market for over 20 years.

In connection with our new business field "screening machines service", we are able to offer you complete service for all aspects of your screening machines.

This service extends from initial tensioning of the screen frame, delivery of screen accessories and spare parts to optimisation and maintenance of your screening system.

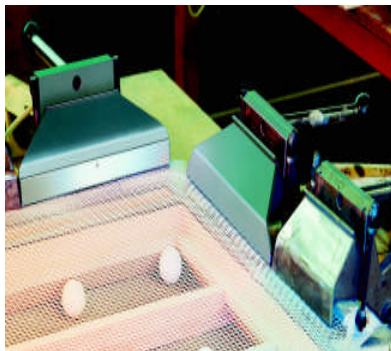

The screen tensioning service

Our screen tensioning service combines our years of experience in bulk materials technology and the know-how in tensioning and gluing. The extensive selection of meshes allows short reaction times to serve you.

Our scope of services:

- Initial tensioning of your used screen frames and rings for all screening machine makes
- Manufacture and tensioning of new screen frames and rings of all typical materials
- Large selection of wire cloths and synthetic fabrics
- Pneumatic tensioning and innovative gluing technique
- Various glues fulfil the requirements of a wide range of applications
- Comprehensive selection of screen accessories, such as screen cleaners, cleaning balls, sleeves, etc.
- Competent service and individual advising
- Regional delivery and pickup service
